NEW BUSINESS

A. R. Freitas permit application for driveway construction with drainage – Lot 17, Lower Ledge, River Road

Tom Stevens, Professional Engineer and Land Surveyor, presented a plan for a proposed driveway on Lot 17 in the Lower Ledge Subdivision on River Road. The subdivision was approved in 1988. The proposed driveway will be paved and an existing catch basin will be reconstructed. A prior plan for this property (which was not approved by this commission) was for a 5 bedroom house, but the current proposal is for a 3 bedroom house with a detached garage. The proposed septic system is also in the review area. Members expressed concern about the steep slope of the driveway and the potential for runoff into the nearby wetlands and watercourses. An adjoining property owner expressed his concern about possible impact of the steep driveway on his property. Members will inspect the site on Wednesday, August 14th at 5:45 p.m.
