Lewis Scranton, applicant Scott Sweirad

On February 6, 2018 at 1:00 p.m. the Historic Review Committee members visited the site at 24 Birch Mill Road and unanimously agree that the structure under review is beyond salvage.

The Committee will not oppose a permit for demolition.

Members have noted the presence of a stone foundation on the property that does have historic significance, but the property owner has no intention of disturbing that area.

Respectfully submitted
